

# Placing orders online made easy

Wish you could send orders and quotation requests securely and conveniently from server to server? **myAPOSTROPH** is simple, fast and uses banking-level encryption. The copy feature makes recurring orders easy to duplicate, and you can submit them as documents or free text.

## Our online portal offers the following benefits:

- ✓ Standardised order placement process
- ✓ Online deadline monitoring for clients
- ✓ Instant overview of all orders placed
- ✓ Handy cost overview
- ✓ Archiving feature for source and target documents
- ✓ Simple web browser operation
- ✓ Reduced strain on exchange servers (less e-mail traffic)
- ✓ State-of-the-art security standards for data traffic
- ✓ Client-specific processes and interfaces (API)

Book an [online demo](#) and get to know all the features of **myAPOSTROPH**.

### Security

100% discretion and maximum security for your confidential data thanks to data hosted in Switzerland and ISO 27001 certified processes.

## AI integration: machine translation

On request, we can integrate our online translator into the **myAPOSTROPH** portal for you and your team. Let us know how we can help you.

# Our platform is easy to use

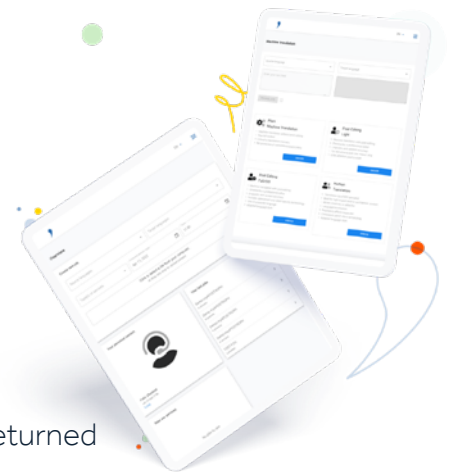

## User account / login

We'll open an account for you with a password, or you can do so yourself online. As a **user**, you can view all the orders you yourself have placed; as a **superuser**, you can view and control all the orders placed with us by all the users in your organisation, except for those orders marked as confidential.

## To place an order

- 1 Log in
- 2 Enter the order details:
  - Service required
  - Target language
  - Proposed deadline
- 3 Upload the file(s)
- 4 Upload the order

The completed order will be returned to you by the agreed deadline.

## Multilingual user interface

You have a choice of languages: German, English or French.

## Direct connection thanks to interfaces

Launch translations directly from your Intranet, ERP, PIM, CMS or sourcing platform. Our interfaces simplify and optimise the data transfer processes.
